I believe that I have every right to listen to my XM Satellite Radio and its traffic and weather channels, I don't think it should be up to the National Association of Broadcasters to dictate what I can and can't listen to. I pay for these services and believe I deserve to listen to what is available to me and not have that availability limited because of one particular association. I strongly urge you to reject the NAB's petition 04-160 and to support XM Satellite Radio's ability to provide me with the programming I DEMAND and DESERVE. sincerely,
Richard White
